

Jan Evangelista Purkyně University in Ústí nad Labem The Czech Republic

Presenter:

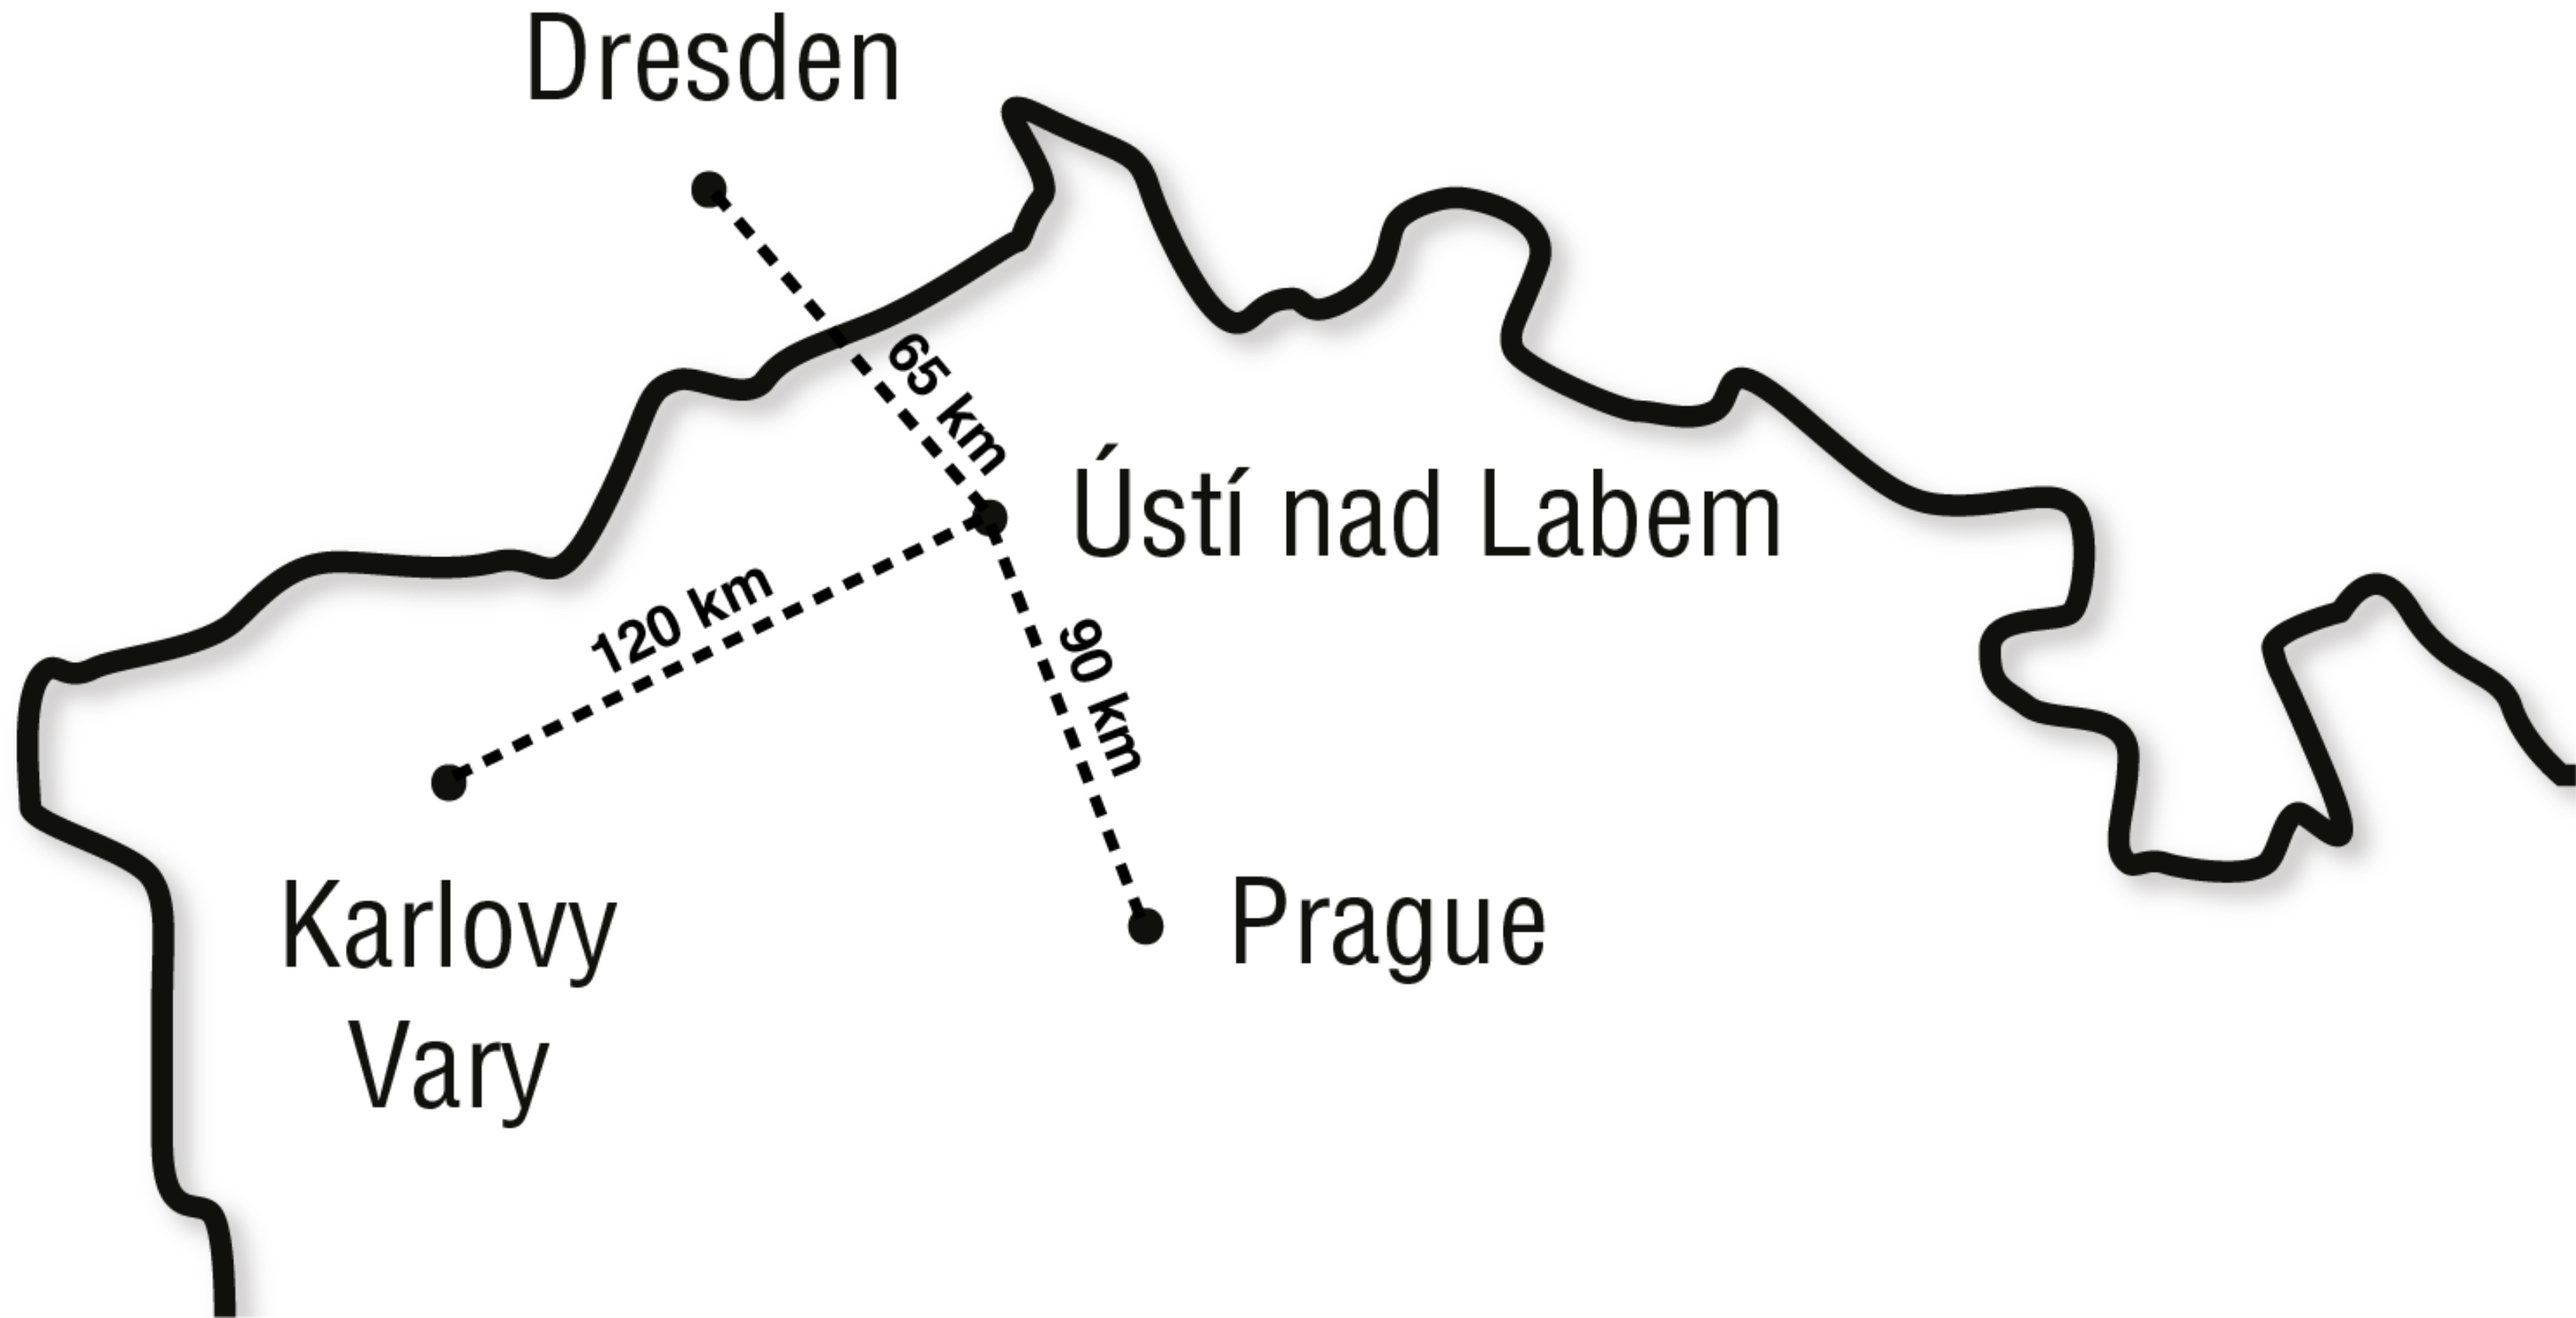

Full name and titles

www.ujep.cz/en

The Czech Republic

University's location

Ústí nad Labem

The city Ústí nad Labem is the administrative and cultural centre of our region. It is also an important junction connecting Prague with Germany.

Our city has a rich history. It has been proven that Ústí already existed at the time of the 13th century. The city slowly grew, and is now home to more than 92 000 inhabitants.

Ústí nad Labem

The river Labe, which is one of the most important rivers in our country, flows directly through our city centre.

The heart of our city is without a doubt the university and a brand-new campus, which continues attract new generations of students.

J. E. Purkyně

Jan Evangelista Purkyně (1787–1869), after whom the university is named, was born nearby in a small town Libochovice. He was a Czech physiologist, anatomist, biologist, poet and philosopher. Furthermore, he was a devoted patriot.

Today, Purkyně is considered to be one of the founders of cytology (the discipline of biology focused on cells).

History

of our university

1954

Higher Teacher
Training College

1959

Pedagogical Institute

1964

Faculty of Education

1991

University was founded

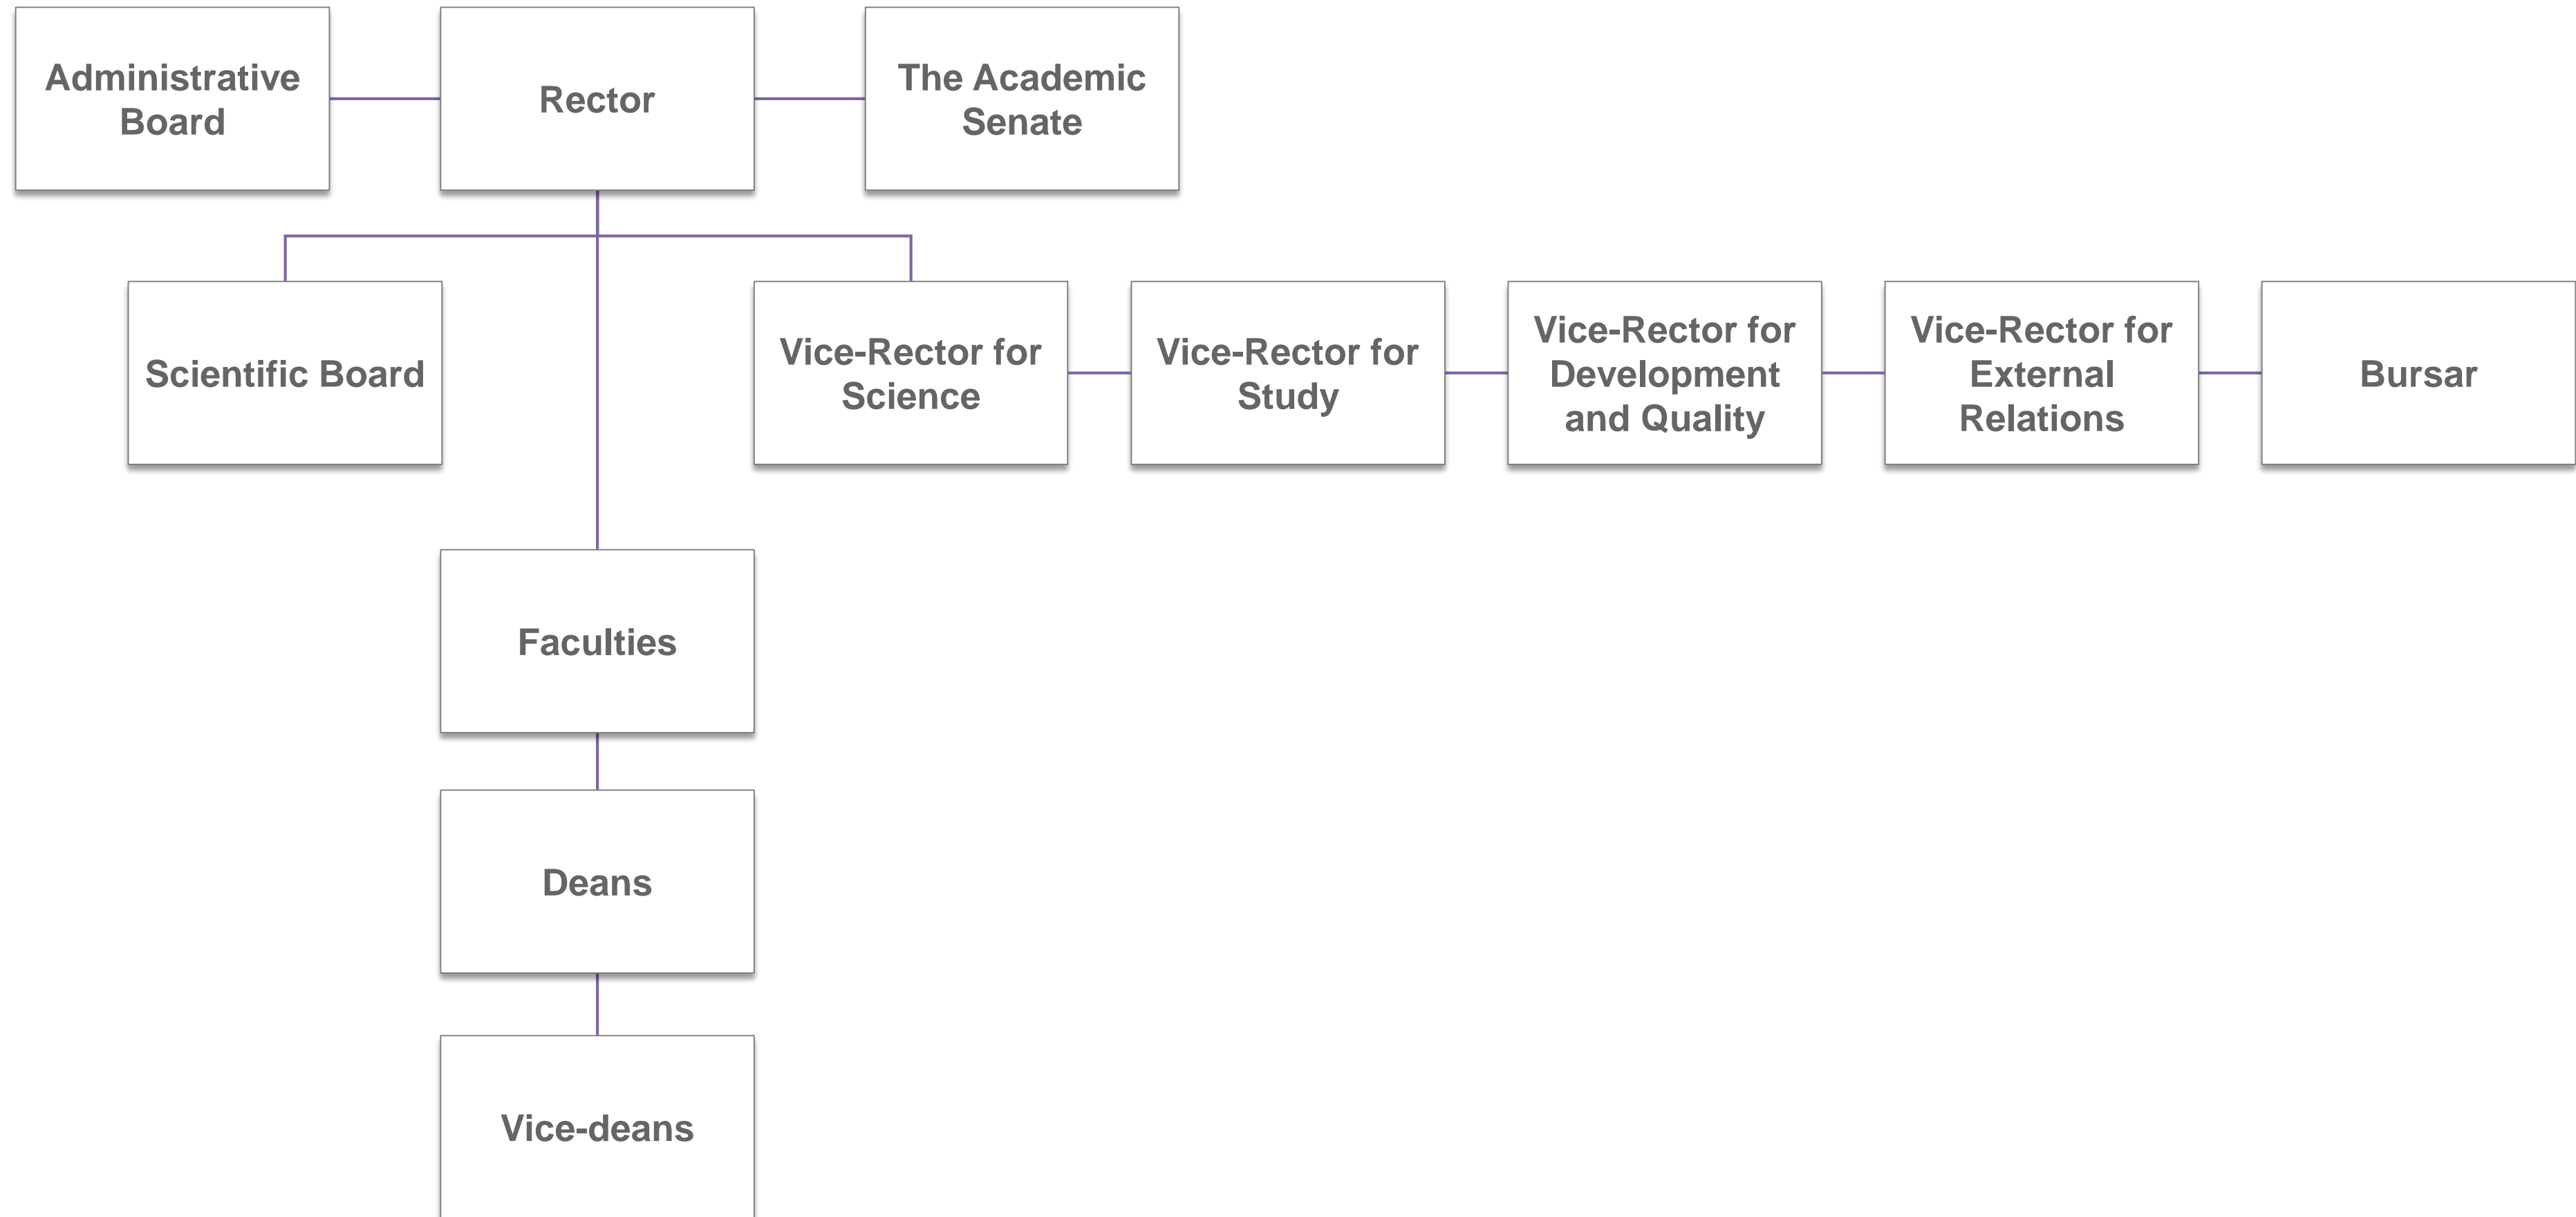

- » Faculty of Education
- » Faculty of Environment
- » Faculty of Social and Economic Studies
- » Institute of Slavonic & Germanic Studies

University today

- » Faculty of Mechanical Engineering
- » Faculty of Environment
- » Faculty of Art and Design
- » Faculty of Arts
- » Faculty of Health Studies
- » Faculty of Science
- » Faculty of Education
- » Faculty of Social and Economic Studies

The university structure

Faculty of Mechanical Engineering

Faculty of Mechanical Engineering prepares future experts for various industrial branches, such as engineering, technology, energetics and material engineering.

Faculty of Environment

Faculty of Environment focuses on ecology and problems connected with a human interaction with nature.

Faculty of Art and Design

Faculty of Art and Design offers complex education in various specializations focused on art and design.

Faculty of Arts

Faculty of Arts is focused on education and research in the humanities, such as political studies, history, philosophy and German language.

Faculty of Health Studies

Faculty of Health Studies educates students in non-medical health fields, such as physiotherapy, occupational therapy, general nursing and midwifery.

Faculty of Science

Faculty of Science focuses on knowledge and education in all nature sciences, with a strong emphasis on scientific progress in each discipline.

Faculty of Education

Faculty of Education focuses on preparation of prospective teachers and other experts in the field of education, ranging from kindergarten to university and other leisure-time activities.

Faculty of Social and Economic studies

Faculty of Social and Economic Studies prepares highly qualified economists and managers in various social spheres.

Study programmes and courses

in the Czech language

Bachelor
(Bc., BcA.)

Master
(Mgr., MgA., Ing.)

Doctoral
(Ph.D.)

in the English language

Photography
(MgA.) – FUD

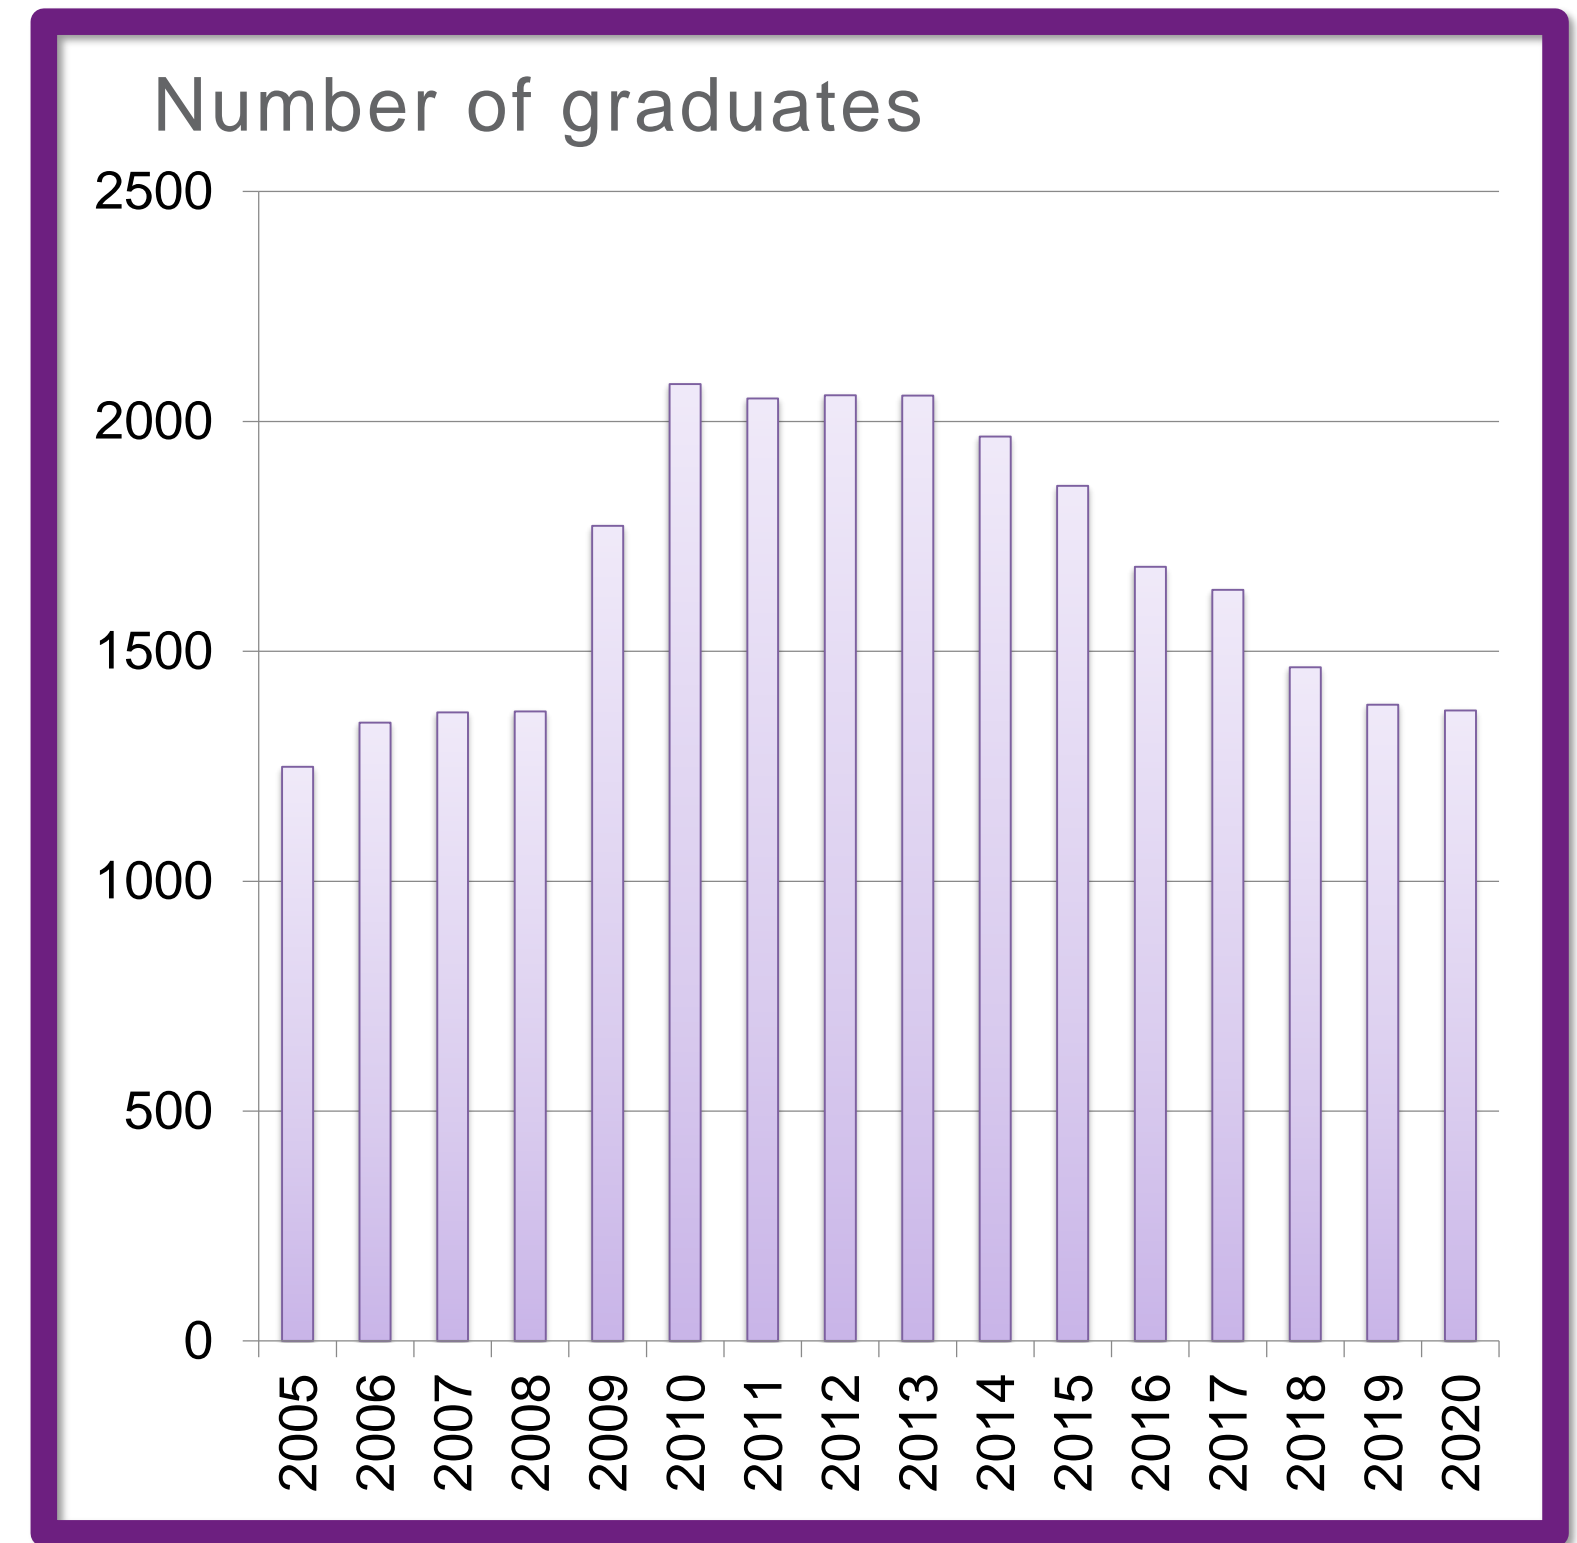

Geographies of Transformation
(Ph.D.) – PřF

in the English language for ERASMUS students

Our university also offers a large number of courses on all faculties to ERASMUS+ programme students.

Number of our students and graduates from 2005 to present

Science & Research

The University of Jan Evangelista Purkyně participates in many projects focused on the development of science and technology, and on improving the quality of life in our region.

As part of this endeavour, we are open to any potential projects and partnerships at both the local and international field.

The following slides provide examples of a few such projects.

Science & Research

Project MATEQ

A research project focused on real applications in biomedicine, chemical industry, renewable resources, supporting our environment and enhancing quality of life.

Project Smart City – Smart Region – Smart Community

A complex view of the creation of high-quality living conditions and infrastructure for successful living, in order to overcome social problems in a society.

Science & Research

Project

Support of infrastructure and cooperation

We finance international cooperation (EU, USA, Russia, etc.) with this project of the overall budget reaching 2 billions CZK.

Thanks to this project, we have been able to build new technical natural science labs, and other scientific equipment.

Furthermore, this project helps international knowledge transfer, cooperation between science and industry, local education, university's doctoral students, and internal grants on UJEP.

U3V

The Third Age University

The Third Age University (U3V) is a specific form of lifelong learning organized by us as a result of our membership in the Association of the Third Age Universities in an agreement with the the Charter of Rights and Freedoms, and also with our status from the academic year 1994/1995.

TAU

Teen Age University

Our university also organizes the Teen Age University, which is two semester long course for elementary school pupils aged 7 to 12 years old. They are taught by university teachers, who help these bright young minds to enter new spheres of knowledge in various scientific areas, such as psychology, history, entomology, art and street art, Slavistics, chemistry, dramatic education, math and countless others.

The Teen Age University UJEP has been organised annually ever since 2009.

Dormitories

UJEP's dormitories

Our university has a large enough capacity to house its students thanks to three buildings located in close proximity to the main campus (10 minutes by foot).

Included in our dormitories, besides the individual flats, are laundry room, music room, and IT and social room.

Catering facility

Catering facility

UJEP has its own on-campus catering facility in our new Center for Natural Science and Technical Studies building.

You can choose from a range of main meals. Included as part of the daily offer are various desserts, drinks and other food.

Students and employees of UJEP receive discount for a main meal.

Library

Scientific Library and the UJEP book shop

The Science Library was established in 2013 by merging 5 independent faculty libraries.

The Science Library, besides serving its main role, hosts a large number of cultural and educational events.

There is also a collection of books from the Austrian National Library on our library premises.

The university also owns and operates its own book shop.

Sports hall and sport centre

Our modern sports hall is used mainly by students from the Department of Physical Education. It is also used by the general public.

Our university also hosts the University Sport Centre, which offers the possibility to connect a top-level sports career with studying.

Right under the sports hall, our students and employees can work out in the new, well-equipped, and modern gym.

We are the proud recipient of a renowned HR Award

The HR Excellence in Research Award (HR Award) is a prestigious award given by the European Committee for excellent performance in HR care in a scientific environment. For any researcher, us having this award is a guarantee of European standards when it comes to caring about our employees, transparency in tenders, openness to the public, and high quality of work environment.

Achievements and projects

- » **Faculty of Arts** – foundation of the Centre of German language and intercultural education
- » **Faculty of Health Studies** – foundation of a laboratory focused on the research of chronic illnesses
- » **Faculty of Science** – research of nanotechnologies for environmental protection
- » **Faculty of Education** – school for everyone (common way to overcome the boundaries in society)

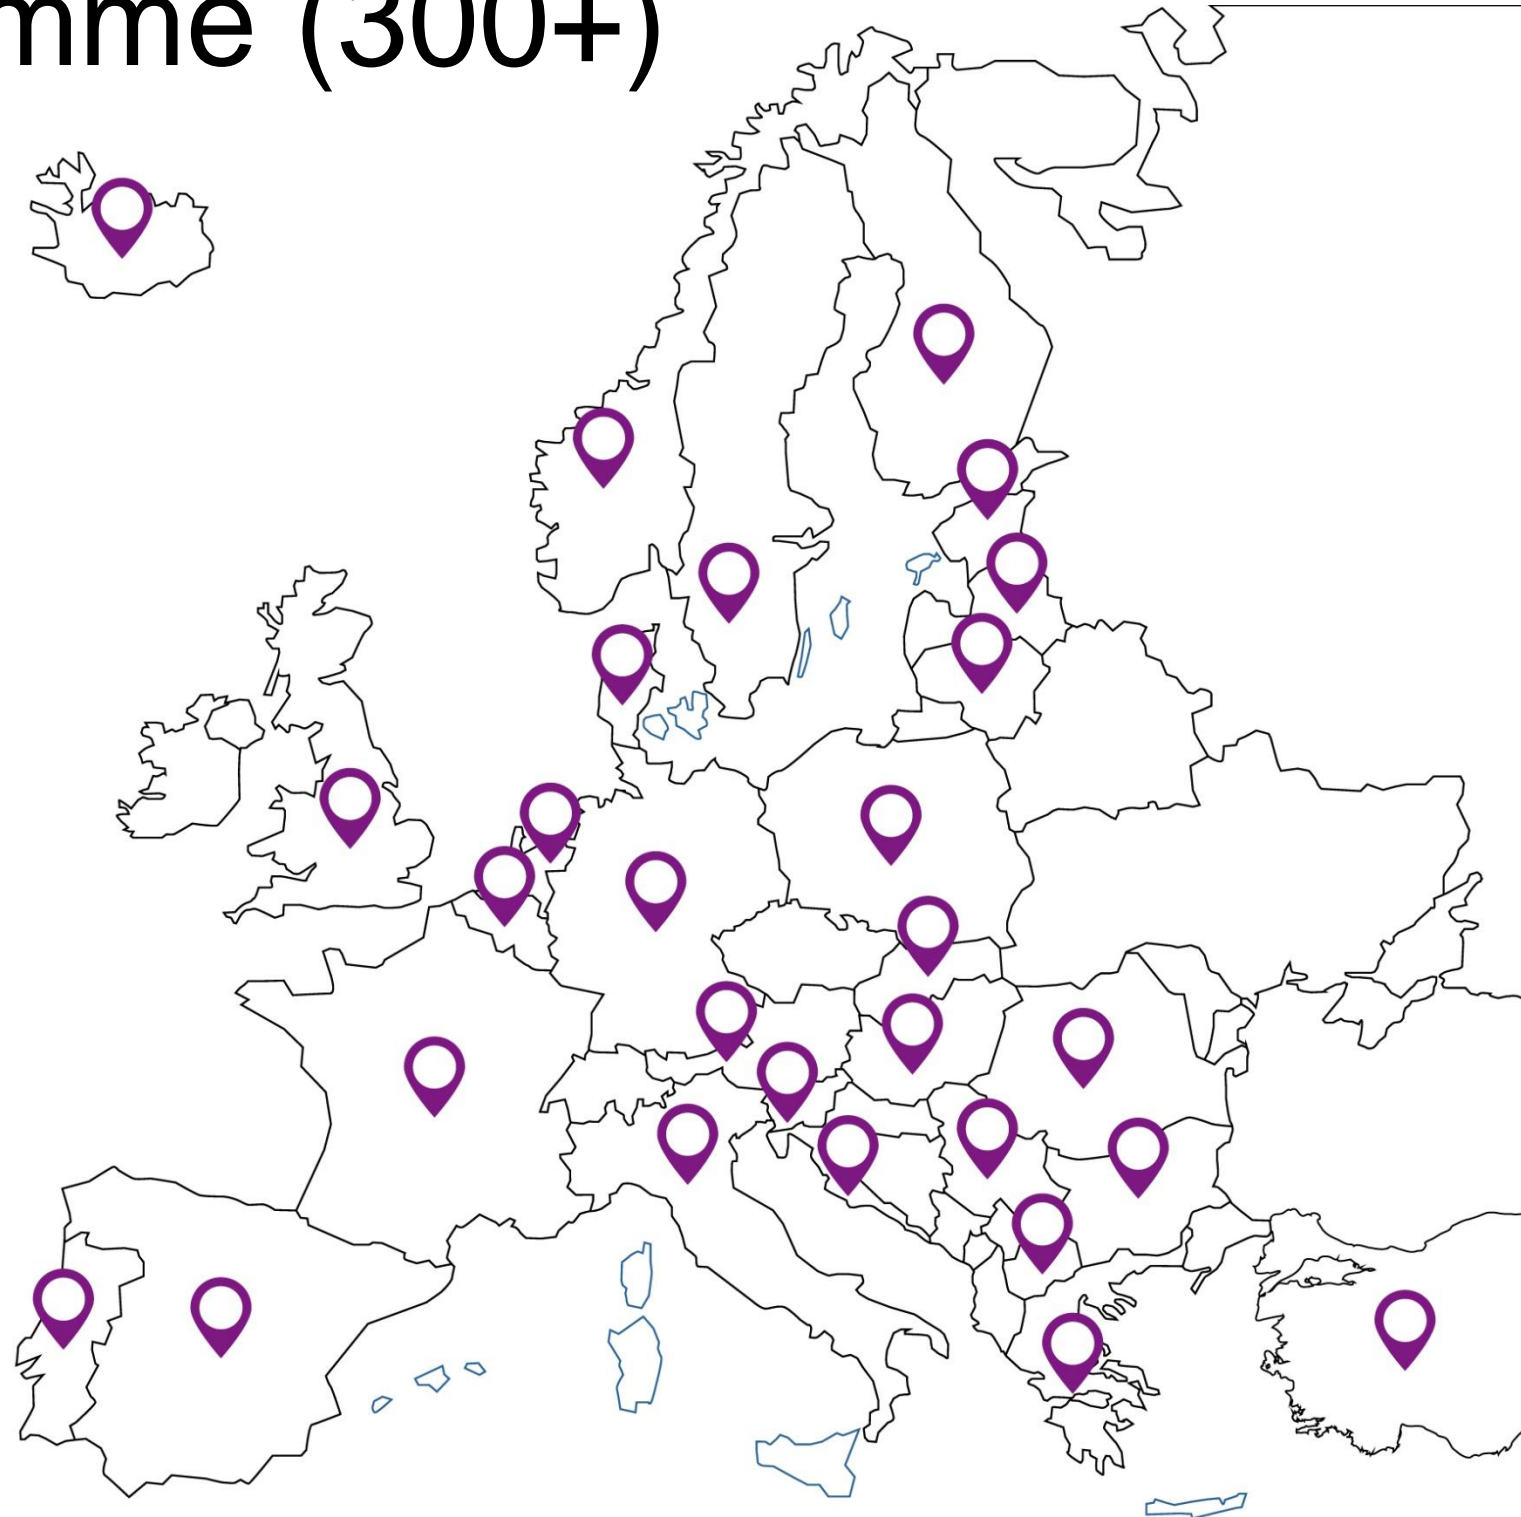

Achievements and projects

- » **Faculty of Mechanical Engineering** – patent for alloys and nanocoats for the automobile industry
- » **Faculty of Environment** – successes in the area of palaeontology in Egypt
- » **Faculty of Art and Design** – reconstruction of unused building into an art gallery
- » **Faculty of Social and Economic Studies** – improvement of economy policy and effort in building international relations within the Institute for Economical and Ecological Policy

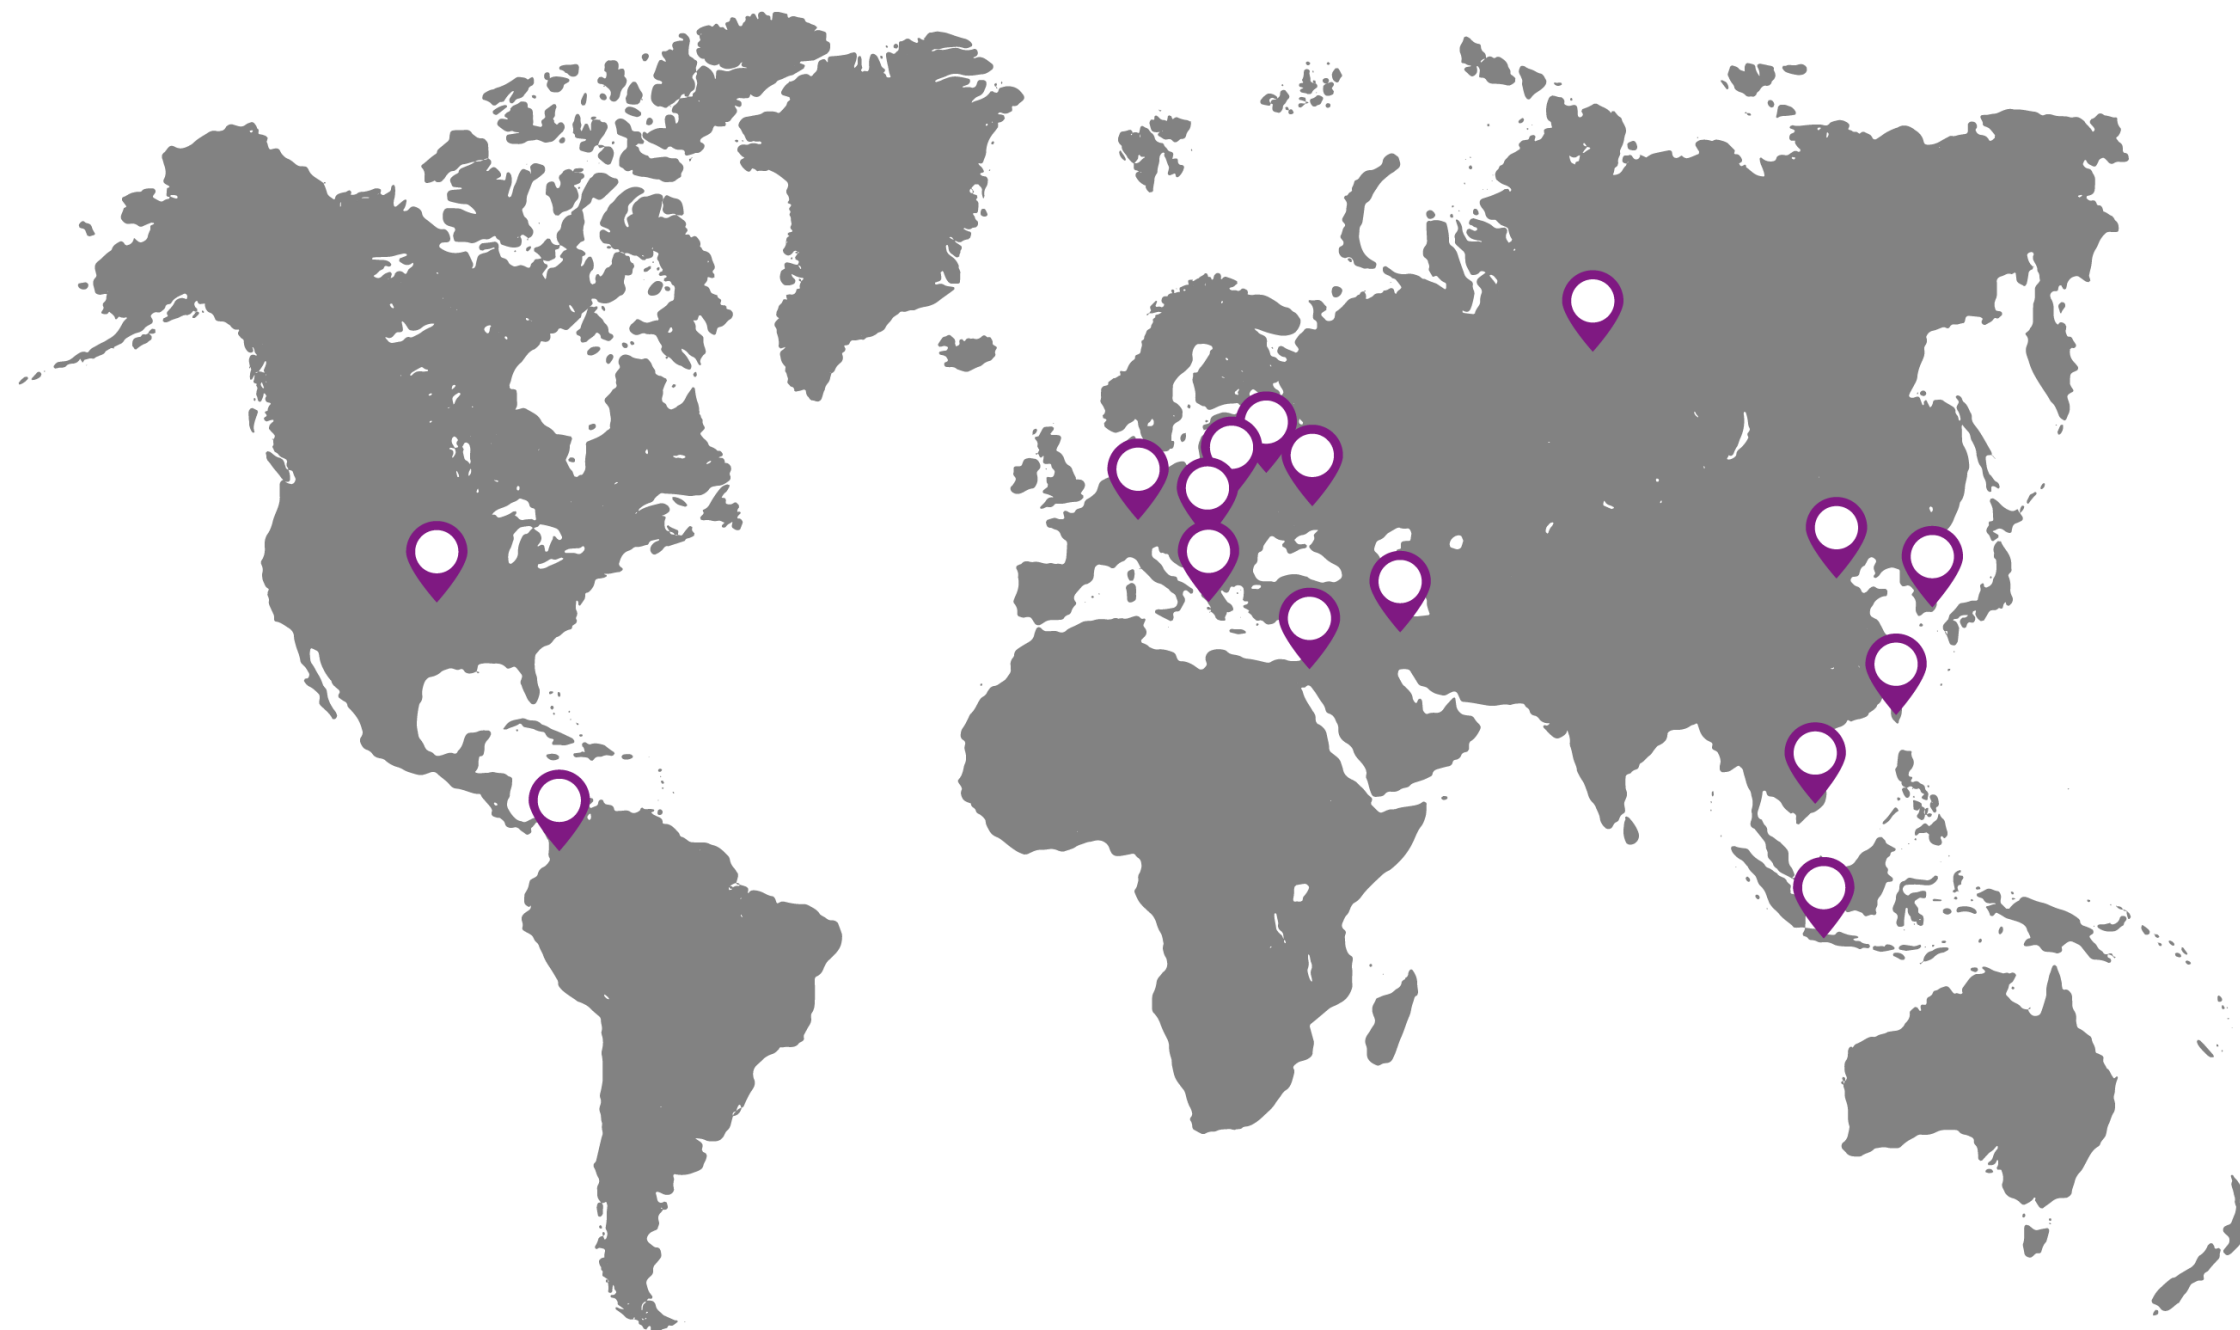

Partner institutions in the ERASMUS+ programme (300+)

- Austria
- Belgium
- Bulgaria
